About the Programme -

In the wake of the deadly Covid 19, our day to day activities in our respective institutions came to a standstill, when lockdown was announced.A few months down the line, everyone related to the teaching proffesion had realised the conventional "chalk and talk" method of teaching is now impossible to carry out and the teaching-learning system has taken a new shape i.e Online teaching.

But in a third world country like ours most of the teachers are not accustomed with Online teaching.As it's very important to prepare the teachers for this new challenge.

Department of Computer science, K.K. Das College arranged this e-Workshop to make the teachers prepare to provide e-teaching using Google platform.

This two day course is designed in such a manner that not only the attendees would get familiar with the Google platform and all its teaching tools, but also they can get a hands-on experience about the same.

In addition to that, the team e-Adhyayan offered to extend their help to the attendees in future, regarding this topic.

Audience:

This professional development activity/course is designed for:

Principals and Teachers who want to know about Google platform for teaching learning and evaluation.

Description:

This 2days (12hours) e-Workshop is designed to review the uses of Google platform, so teachers can begin to plan for e-teaching. The e-Workshop is designed to help teachers to:

- Create online accounts and Classrooms
- Onboard students
- Find and create lessons and track student progress
- Engage and support students in e-learning
- Track attendance and participation
- Taking e-tests.
- We will also share some other tools that you might want to consider using.

Assignments are given to attendees to monitor their progress, as well as to make the learning process more interactive and interesting.
