SEVEN DAY FACULTY UPGRADATION WORKSHOP

EXPLORING SPACE:

AN INTRODUCTION TO SPATIAL STATISTICS & ECONOMETRICS

ECONOMICS DEPARTMENT, PRESIDENCY UNIVERSITY

22 - 29 AUGUST 2022

Motivation: Conventional statistical or econometric methods assume that space is uniform and does not affect the relationship between socio-economic variables. Spatial dependence and heterogeneity, however, may cause standard econometric techniques to become inappropriate. Spatial models enable us to examine issues like spatial variations in socio-economic phenomenon, underlying causes of spatial patterns, neighborhood or spill-over effects, etc.

Objective: The objective of this course is to cover the statistical and econometric techniques required for spatial analysis. Exploratory spatial statistics will help participants to plot socio-economic phenomenon over space, identify spatial patterns, measure diffusion over space and estimate spatial correlation. Spatial econometrics, on the other hand, will allow participants to incorporate these effects in a regression model through an extension of the Multiple Linear Regression Model. The program will introduce the participants to the principles of spatial analysis based on a **hands on approach** and employing **menu driven open source software** (GeoDa and DIVA GIS).

Approach: The program will be divided into four components: special lectures, theory, lab sessions and 'do it yourself' assignments. There will be 14 sessions of 2 ½ hours each. The focus will be on learning by doing. Lab sessions will include demonstration of the software capabilities, followed by simple exercises.

Resource persons: Special lectures will be given by Prof. Kiranmoy Das, Applied Statistics Division, ISI Kolkata, Prof. Bhaswati Ganguli, Statistics Department, Calcutta University and Prof. Manisha Chakrabarty, IIM Calcutta. The course will be covered by Prof. Zakir Husain and Prof. Mousumi Dutta of the Economics Department, Presidency University.

Target group: The program is intended for young faculty, research scholars and second year postgraduate students of Economics, Statistics, and Geography. After completing the program, participants will be able to apply spatial techniques in their research. Faculty will also be able to guide their students in using such methods in UG and PG level dissertations.

Application: Interested participants should email presiecon2019@gmail.com by **12th August 2022** stating their names, email, telephone number, designation and institutional affiliation. Seats are limited to 30 participants. A **Certificate of Participation** will be given to all registered participants on completion of the Workshop.

Course fee: The course fee will be Rs. 1,700 + GST @ 18% (Rs.306) = **Rs. 2,006/=**. It will have to be paid vide bank transfer to Presidency University. Details will be notified after application. The course fee will cover brown bag lunch, tea/coffee and nibbles, and course material. We regret that we are unable to provide accommodation, or cover TA/DA expenses of participants.

7 Days National Online Workshop On STATISTICAL DATA ANALYSIS USING SPSS

AUGUST
24-30, 2020
(04:15 pm to 06:00 pm)

INTRODUCTION

To address challenges and opportunities in the field of research a new software product SPSS (Statistical Package for Social Sciences) has enabled academicians and researchers to obtain valuable information from the data. Basic knowledge on SPSS is vital for all users before they proceeded to survey and data analysis. But very often people have inadequate knowledge about the basic operation of SPSS programme. This workshop is for the beginners with little or no experiences in SPSS software who want to acquire the skills and knowledge of getting started in to this software. The programme simply aims at developing the pedagogical and research skills participants

THEME

This workshop aims to provide a comprehensive theoretical and hands on practical experience on MATLAB to the UG & PG students, engineers, working professionals and research scholars so that they can use efficiently and easily for Computational Mathematics. This workshop will provide with a walking tutorial, with lots of hands-on activities, for those who are novice to the programming language and have little or no experience in this field. MATLAB is used in every facet of computational mathematics. Following are some commonly used mathematical calculations where it is used most commonly—Dealing with Matrices and Arrays, 2-D and 3-D Plotting and graphics, Linear Algebra, Algebraic Equations, Non-linear Functions, Statistics, Data Analysis, Calculus and Differential Equations, Numerical Calculations, Integration, Transforms, Curve Fitting, Various other special functions.

TRAINING WORKSHOP

Computing Mathematics Using Matlab

An Indispensable Tool for Researchers and Scientists

Inagural Cermony		April 24, 2021 at 6:00PM to 6:10PM (IST)
Meeting Scheduled for each day		6:00 PM to 7:30PM
Day	Mentor	Day wise Content
24-04-21	Dr. Shalu Gupta	Introduction: What is Matlab?, Why Matlab?, Matlab Components, Environment, Window, script files, programs, global and local variables, some special variables, Managing Matlab environment, Mathematical in built functions, Complex numbers, strings, string conversions, character array, string comparison, managing variables, managing workspace, the format commands.
25-04-21	Dr. Amit Sharma	Basic Operations: Scalars, vectors, matrices, fetching elements, access matrix elements, indexing matrices, submatrices, matrix manipulation, colon operators, Randomization, N-D Arrays, Array Indexing order (2-D), Linear indexing, Matrix concatenation, line space function, logspace function, special matrices, scalar arithmetic operations, array operations, vector and matrix operations, array operations for mxn matrices. Matrix transpose, relational operations, logical operators
26-04-21	Dr. B. S. Ratanpal	2D and 3D Graphs: 2D graphs:Plotting, multigraphs, Loglog plot, semilogy, stemplot, stairs plot, plotty, comet3 command, area graph, comparing data sets with area graphs, bar plot, ezplot, ezpolar, parametric and implicit, scatter, convhull, vorono, tessellation, Delaunay. 3D graphs: 3D curve plotting Meshgrid, visualizing data, surface plotting, combining graphs, comparing graphs, contour, Mesh and contour, function of complex variable.
27-04-21	Dr. Amandeep Singh	Matrices, Determinants and Solutions of System of Equations: Creating Matrices, Adding and Subtracting Matrices, Vector Products and Transpose, Multiplying Matrices, The Identity Matrix, The Kronecker Tensor Product, Vector and Matrix Norms. Inverses and Determinants, Matrix Powers and Exponential, Eigen Values and Eigen Vectors. Computational Considerations, General Solution, Square Systems, Overdetermined
28-04-21	Dr. K.Martin Sagayam	Programming: Function, optional argument, script files, conditional statements, pseudocode and flowcharts, loops, switch, case and otherwise
29-04-21	Dr. Kamal Kumar	Polynomials and Interpolations: Polynomial Function Summary, Representing Polynomials, Polynomial Roots, Characteristic Polynomials, Polynomial Evaluation, Convolution and Deconvolution, Polynomial Derivatives, Polynomial Curve Fitting, Partial Fraction Expansion. Interpolation Function Summary, One-Dimensional Interpolation, Two-Dimensional Interpolation, Comparing Interpolation Methods, Interpolation and Multidimensional Arrays, Triangulation and Interpolation of Scattered Data, Tessellation and Interpolation of Scattered, Data in Higher Dimensions
30-04-21	Dr. Krunal Kachhia	Symbolic Mathematics: Differentiation, Integration, differential equations, Laplace transform

SUMMER SCHOOL ON THE USE AND APPLICATION OF SPSS (TRIAL VERSION)

July 01-05, 2019

Organized By

Biological Anthropology Unit
Indian Statistical Institute
203 Barrackpore Trunk Road
Kolkata 700108

Last date of submitting
application: 16th June, 2019

Date of notification to selected
candidates: 20th June, 2019

Registration Fee:

Rs. 3000/= (Three thousand only).
Registration fee will only be
accepted from the selected
candidates.

Mode of Payment:

Cash/ Demand Draft (In favour of
Indian Statistical Institute,
payable at Kolkata) should reach
to Convenor by 25th June, 2019.

Objectives:

The Summer School intends to train research scholars in basic tools of research in biological and social sciences. The course will help them to work with real-life data. Summarizing, presenting and analyzing data using Statistical Software (SPSS) and writing the report in a publishable form will be the major thrust areas of this workshop.

Who can Apply:

Research Scholars, M. Phil students, Master's degree holders (pass out) and faculty members in life sciences and/or social sciences.

Procedure for Application:

Duly Filled-in application in prescribed form (downloadable from institute's website) should be sent by post or by e-mail to Dr. Baidyanath Pal, Biological Anthropology Unit, Indian Statistical Institute, 203 B.T. Road, Kolkata 700108. e-mail: baidya.isi@gmail.com

About INFLIBNET

The Information and Library Network (INFLIBNET) Centre is an autonomous Inter-University Centre (IUC) of the University Grants Commission (UGC) located in the Infocity, Gandhinagar. Major activities and services of the Centre are geared towards modernization of academic libraries and information centres, promotion of information transfer and access, support scholarship, learning and academic pursuits. The Centre acts as a nodal agency for networking of libraries and information centres in universities, institutions of higher learning and R & D institutions in India. The Centre was established as an independent autonomous Inter-University Centre of the UGC in May 1996 and set out to be a major player for promoting scholarly communication among academicians and researchers across the country.

The technology being a driving force in the contemporary education system, the Centre has taken-up a number of initiatives for the benefit of the academic community in India. These initiatives include i) IndCat, a unified online catalogue of books, theses and journals available in major university libraries in India; ii) SOUL 2.0, state-of-the-art integrated library management software; iii) e-ShodhSindhu for extending access to selected scholarly electronic journals and databases to eligible universities, centrally-funded technical institutions and colleges in different disciplines; iv) Shodhganga for enabling online submission of doctoral theses and dissertations by research scholars in an open access digital repository; v) Shodhgangotri for facilitating research scholars to submit approved synopsis of research proposals submitted to their universities; vi) InfoPort: INFLIBNET's Subject Gateway for Indian Electronic Resources; vii) e-PG Pathshala, a project assigned to the UGC by NME-ICT, wherein e-content are being developed in 77 subjects at postgraduate level; viii) VIDWAN, a premier database of profiles of scientists and faculty members working in leading academic institutions and other R & D organisations involved in teaching and research in India; ix) e-Acharya - an Integrated e-content portal: a web-based portal consisting of all e-content with funding from NME-ICT, MHRD; x) ICSSR Data Service: Social Science Data Repository for setting up of repository and hosting of NSS and ASI datasets into the data repository; and xi) National Institutional Ranking Framework (NIRF), a project assigned by MHRD for ranking institutions of higher education across the country. xii) IRINS - an Research Information Management system which showcases the research output of an individual institute in India.

Introduction

UGC as well as INFLIBNET Centre is bringing out various measures to enhance the quality of research in the Nation. A national repository is created for providing open access to the research results through Shodhganga portal. In order to improve the quality users are expected to be aware of the research ethics and integrity which are the key elements for the design, conduct and reporting of the results of research. Research Scholars or research supervisors who intend to publish their thesis/papers are generally not aware of the rules or ethics of research based writing. Many of these rules have to do with research and proper citation style. Gaining familiarity with these rules, however, is critically important, as inadvertent mistakes can lead to charges of plagiarism, which is the uncredited use (both intentional and unintentional) of somebody else's words or ideas. To prevent plagiarism on National Level INFLIBNET has initiated to provide antiplagiarism software to many Universities in India. Further, since long, traditional metrics based on citation analysis are in used as a profound measure for the research impact assessment. With the advancement of the Internet and web technologies, there is a growing trend in the use of social media platforms and web sources by the research communities and academia in their research environment to perform various research activities, for collaborating, discussing, and sharing of research, etc. In recent years, data collected from these social media platforms are considered and emerging as a new tool / method for research assessment collectively termed as "Altmetrics" which was coined in September, 2010 by Jason Priem. There have been seen an increasing interest towards the importance and use of altmetrics as an alternative or complementary method to traditional citation-based metrics for assessing scholarly research impact.

Objectives of the Workshop

The objective of this workshop is to introduce the modern ways of conducting literature research, use of discovery tools and databases, use of reference management software such as EndNote, Mendeley & Zotero, and data analytical tool such as R Language in analysing for research data.

The Workshop will help the participants in applying proper research methodology and improving their analysis by applying various statistical techniques using popular software. The course aims to improve the research skills and competence among the researchers by strengthening their knowledge as well as improving researcher's technical writing skills, etc. Further, this workshop will provide the participants a sound overview on different research metrics, especially on altmetrics, its usefulness in research impact evaluation, and explore tools being used to extract social media metrics (altmetrics) data.

Major Topics

The scope of workshop is to cover theoretical discussion and practical exposure on the following aspects of research integrity and ethical issues using anti-plagiarism and other research tools.

- Research ethics and general principle, policy and procedure of research ethics;
- Standards of research integrity using different reference management tools such as My EndNote Web, Mendeley, Zotero etc.;
- Basic concepts and foundations of research methodology and academic writing;
- Research Evaluation Management: Different Aspects;
- Performance indicators of published research;
- Statistical Methods for Research Data Analysis using R language: an Introduction;
- Use of Anti-Plagiarism Tool/Software for qualitative research output- "hands on" sessions; and
- Altmetrics: An Overview, Webometric Analyst 2.0: Installation and Practice

Resource Persons

The resource persons are eminent IT / Computer / LIS Scientists/Researchers/Scholars/Professionals and Experts in the country and INFLIBNET Centre

Target Participants

Policy makers, dean of research, head of departments, research supervisors (Guides), research scholars, prospective researchers etc. A maximum of 25-30 candidates will be selected for the workshop on First-Come-First-Served basis.

Duration: One Week (23-28 September, 2019)

One week workshop includes all hands on practical sessions, Case Studies, Discussion Forum, Group Presentation

Venue

The Workshop will be conducted at **Information and Library Network Centre**, An IUC of University Grants Commission, Infocity, Gandhinagar-382007, Gujarat, India.

Workshop Fee

The registration fee is Rs. 7,080.00 (Rupees Seven Thousand Eighty only) per person without accommodation and Rs. 10,870.00 (Rupees Ten Thousand Eight hundred Seventy only) with accommodation which is inclusive of GST rates. It covers the cost of training programme kit containing training materials, breakfast, lunch and dinner during the training period. The payment should be made through Demand Draft in favour of INFLIBNET Centre payable at Gandhinagar along with filled-in
