

GREEN INITIATIVE AND ENERGY CONSERVATION POLICY

● Green Initiative:

Clean and Green, plastic free environment is the basic need of the time. With this vision K.K.DAS College puts an extra effort by implementing various environmental policies.

The college has specific policies, which are implemented and guided by our Principal and the IQAC. The college believes it is very important for the students to understand the value of a green and clean environment for their future existence. This can help them to grow as complete human beings with a holistic mind combined with a healthy body. It is the policy of the college to ensure a green initiative venture by the involvement of all stakeholders. The students, teaching staff as well as the non-teaching staff participate regularly for maintaining green zone as well as a green and purified environment. The eco club along with NSS unit of the College who constitute the green and energy Volunteers team, take the initiative of optimal conservation of energy, green plantation and clean campus with plastic free zone.

“Each one plant one” is the environmental quality policy of the College.

To achieve the goal of objectives following steps are taken:

1. Environmental awareness programmes are organized for the students, faculty and society.
2. An Annual Green and Environmental audit is conducted.
3. Spreading consciousness not only within the college campus but beyond the college campus regarding Environment and energy conservation.
4. Minimizing carbon footprint in the college.
5. Protocols are maintained to restrict the use of automobiles around the campus.
6. The Campus is maintained as a Plastic Free Zone and a No Smoking Zone.

Energy Conservation policies:

K.K. Das College is also very much aware of the necessities of energy conservation and the college maintains strict policies regarding this.

There are a group of dedicated energy volunteers, who are in charge of inspecting the daily energy conservation practices of the college. Apart from the volunteers a designated person is appointed for overall inspection.

The Energy Conservation policies of the College are:

1. To spread awareness among the students and faculties about the importance of energy conservation.
2. To conduct an Energy Audit annually.
3. To turn off any electrical or electronic device when it is not in use.
4. To install MCBs outside each room to turn off power supply for multiple appliances.
5. To avoid the use of decorative light and maximize the use of daylight.
6. To replace all CFL tubes with LEDs.

APPROVED IN THE GB MEETING HELD ON 14.05.2022 , Item No 13

Dr. Ramkrishna Prasad Chakraborty
